How *Australia* cleans

We are committed to...

When Sabco decided to commit to a Reconciliation Action Plan (RAP) we committed to always improving our understanding of Aboriginal and Torres Strait Islander peoples, histories, cultures, teachings, beliefs and future prospects. These new learnings and appreciations now become a part of the Sabco story, a talking point that our employees can share with family and friends with the potential to shape thought and actions well beyond the scope of Sabco.

We will use this opportunity to learn and grow as a business and to encourage the entire team to use this knowledge in our wider relationships with our partners and customers. We believe that by understanding the rich history of the Aboriginal and Torres Strait Islander cultures, we can create a more dynamic, tolerant and connected workforce that can use this perspective to influence and create opportunity well beyond our own company.

We are committed to acting ethically and with integrity and transparency in all our business dealings. Specifically, we are committed to ensuring that we identify and eliminate, as far as is possible, modern slavery practices within our operations and supply chains. We recognise our responsibility to contribute to the elimination of modern slavery and that responding effectively to risks of modern slavery within our supply chains is a process of continuous improvement.

We always act with integrity – taking responsibility for our work, caring for our people, and staying focused on safety and sustainability.

Sabco is committed to environmental sustainability in our operations. We will achieve continuous improvement in our environmental performance by setting goals, measuring progress, and communicating results.

This holistic approach to sustainability is supported by globally recognised standards and goals such as the SDG. SDG are a collection of 17 interlinked global goals designed to be a “blueprint” to achieve a better and more sustainable future for all.

HOW AUSTRALIAN'S HAVE CLEANED FOR 130 YEARS!

In 1892, Mr W.E Hay started the South Australian Brush Company with a simple vision - to provide quality cleaning tools, to help Australian's clean. As we embark on our 130th year, we celebrate the many Australian homes and businesses that SABCO has been a part of over the journey. Whether cleaning the home, workplace, office or public facilities, Sabco has been how Australians clean since 1892 and we look forward to doing so for the next 100 years!

Commercial cleaning is important work and whilst the job at hand may vary and require different cleaning solutions, there is one thing we can all agree on – that a good clean matters! Sabco Professional is dedicated to providing the highest quality, leading edge cleaning products. We are passionate about cleaning and our team of industry experts are here to provide superior results and practical solutions that are tailored to your needs.

Sabco is for every Australian cleaner!
No matter what you need to clean – the South Australian Brush Company always was and still is, made for all of us.

OUR BRANDS

How Australia cleans

The household cleaning brand Australians know and trust. Dedicated to developing innovative high quality cleaning products with outstanding performance.

Professional cleaning

Specialises in heavy duty commercial products and solutions to meet all industry requirements. Made to the highest quality specifications for long life and superior performance.

Smart solutions for every job

Recognised for a unique combination of value and performance. Innovative purpose specific products for regular cleaning tasks.

TurtleWax

Premium car care

Premium automotive products to compliment the famous Turtle Wax cleaning, polishing and waxing product range. Made from Premium microfibre and other unique materials to deliver unbeatable results in the safest way possible.

The Perfect Finish, Made Simple!

The Oakwood Complete Care System includes a comprehensive range of equine, home, automotive, leather and pet care systems that address specific care stages to ensure that you prolong the life and natural beauty of your investments.

COMMERCIAL STANDARD COLOUR CODING

Icons

Sabco Professional has always been synonymous with a high quality standard. We offer a wide range of cleaning products suited to every industry including: Healthcare, Office Buildings, Hotels, Restaurants & Industrial. We have introduced icons for easy identification for our Commercial Segment.

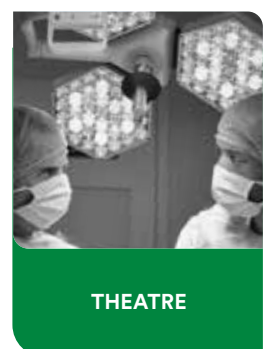

Colour Coding

We understand that cross-contamination is one of the highest risks in the spread of infection. Sabco Professional offers an extensive colour coded range of products to ensure the right product is used to clean the right area, minimising the risk of cross contamination.

The following colour coding scheme is the most accepted in Australia.

TRADITIONAL MOP RANGE

- MICROFIBRE MOPS
- TEXTILE BLEND MOPS
- COTTON & POLYCOTTON MOPS

TRADITIONAL MOP RANGE

[PROFESSIONAL]

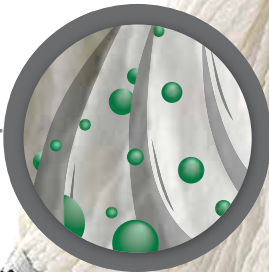

PREMIUM MICROFIBRE MOPS

SUITABLE FOR USE WITH
Sabco Aluminium 25mm Universal
handle range

100% MICROFIBRE

Microfibre is constructed of a blend of polyester and polyamide and is safe to use on even the most delicate surfaces. Polyester serves as the scrubbing and cleaning fibre. Polyamide performs as the holding and quick drying fibre

BANDED
To prevent tangling when
used in wringer buckets

LOOPED ENDS

To provide larger surface coverage
and prevent fraying

350G MICROFIBRE ROUND MOP

- Ideal for applying **sealers and polish**
- Will wring out very dry and leave floors streak free
- High absorbency
- Fine polycotton strands clean grout

COMMERCIAL MOPS

Our four highest quality mop yarns and textiles include:

MICROFIBRE

Traps removed dust or soil, lifting it away. Is extremely absorbent – able to absorb and hold up to six times its weight. Microfibre can minimise the need for chemicals.

ULTIMATE PRO & CONTRACTOR

Typically cotton, polyester, rayon and acrylic. Engineered to be more hard-wearing and absorbent and manufactured to result in less lint.

COTTON

Traditional 100% pure cotton for maximum absorbency and durability.

POLYCOTTON

Polyester yarn that is perfect for floor polish application.

FLAT MOPPING

- HOOK & LOOP PADS
- DISPOSABLE PADS

- MOP SETS
- FLAT MOP CHARGING BUCKETS
- DUST CONTROL MOPS

THE PROFESSIONAL FLAT MOP ADVANTAGE

BUCKETLESS CLEANING, DRIER FLOORS AND SUPERIOR RESULTS

Sabco's innovative professional flat mopping range offers ergonomic solutions to effectively and efficiently clean large surface areas. The flat base provides even pressure for superior floor contact and also makes them suitable for cleaning vertical surfaces such as walls, ceilings and stairs.

Benefits of Flat Mopping:

Effective Clean:

- Improved dust removal
- Better bacteria removal
- Rotating head gets around and under objects with ease
- Even weight distribution to the floor

Hygiene:

- Less water= reduction of bacteria proliferation
- Reduces cross-contamination

Cost Saving:

- Better durability
- Less chemicals
- Reduced costs to clean and dry microfibre pads vs conventional mops (Pad dries without heat)

Time Saving / Efficiency:

- Larger and quicker surface coverage
- Minimal and quick preparation
- Limited operator training required
- No need for wringing and rinsing

Versatility

- Suitable for all smooth floors, walls/ vertical surfaces, ceilings (operation theatre; clean rooms), stairs, windows and more.

Ergonomics:

- Lighter weight than conventional mops
- No heavy bucket required
- Telescopic handle for easy reach
- Better control of the mop

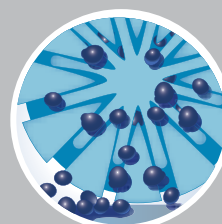

THE MICROFIBRE DIFFERENCE

Why Microfibre?

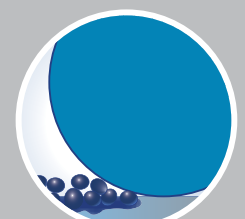

The innovative characteristic of this thread is that it is extremely fine — up to 100 times finer than a human hair — allowing it to penetrate even the smallest cracks in the surface. The result is an in-depth cleaning action that removes the smallest forms of dirt, pollen and bacteria out of microscopic crevices.

MICROFIBRE MOPS GUARANTEE HIGH PERFORMANCE!

Each microfibre thread has wedge-shaped borders, collecting dust with a micro-abrasive action that traps and retains it in the fibre.

MICROFIBRE

TRADITIONAL FIBRE

FLAT MOPPING

[PROFESSIONAL]

HOOK & LOOP PADS

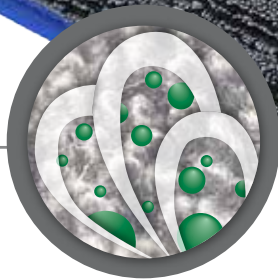

BLEACH RESISTANT YARN

With unique antibacterial treatment for superior removal of bacteria during washing

TWIST PILE MICROFIBRE

Allows the mop pad to glide over the floor surfaces whilst being ultra absorbent. Removes microbes, dirt, dust & grime

COLOUR CODED EDGING

To match professional colour coding system. This helps to lower the risk of cross contamination

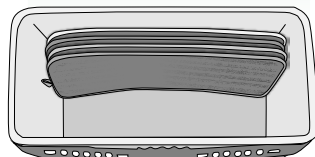

ULTRACLEAN MICROFIBRE ANTIBACTERIAL FLAT MOP PAD 47 X 10CM

SABC-1267W	100	10	9310205012724

- Machine washable up to 90 degrees & 500 times
- Tumble dry safe for up to 54 degrees
- Up to 30m sq coverage
- Use with just water or chemicals

STEP 1

Prepare charging bucket with required amount of UltraClean Microfibre Floor Pads. Place the Ultraclean Microfibre Pad sideways (long ways across) inside into the bucket.

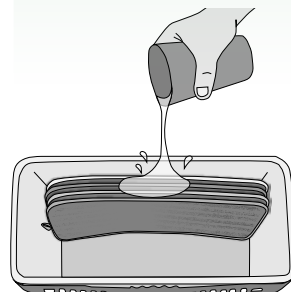

STEP 2

Pre-soak with cleaning solution that is recommended for your facility by pouring over the top of the UltraClean Microfibre Floor Pads evenly with a measuring jug.

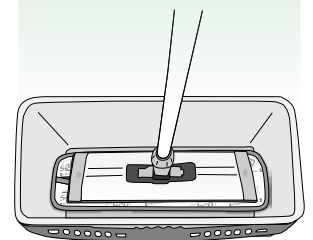

5 mop pads = 1L
10 mop pads = 2L
15 mop pads = 3L
20 mop pads = 4L

Charging time for all solution to soak into the UltraClean Microfibre Pads is 5mins and they are ready to be used.

STEP 3

Place the base of the frame into the charging bucket to pick up the UltraClean Microfibre Pad ready to start the floor cleaning process.

Independently laboratory tested for it's effectiveness against (5): *S. aureus*; *E. hirae*, *P. aeruginosa*, *E. coli*, *VRE & Murine hepatitis virus MHV-1 (COVID-19)*

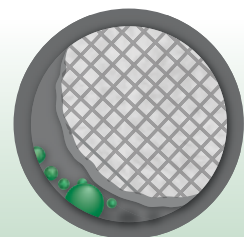

WHAT IS MICROFIBRE?

Microfibre is processed mechanically and chemically to be broken in finer parts, 1/100th the diameter of a human hair. What defines a microfibre is its size: a microfibre must be smaller than one denier, which is a unit of linear measurement equal to the mass in grams of 9,000 meters of the fibre.

MICROFIBRE

Microfibre will trap microbes, dirt, dust, grime and moisture within, lifting them away from the surface for a superior clean. Result: surface is hygienically clean, dry and polished.

COTTON FIBRE

Cotton fibres push dirt particles across the surface, rather than lifting them away. Result: surface is still dirty and wet.

HANDLES

THE SPRINKLER SPRAY HANDLE

CODE: SABC-1400

CTN QTY: 6 MOQ: 1

APN: 9310567014008

- Spray Handle cleaning system for flat mop hook & loop and pockets
- Push button to release water
- Non-slip soft sponge for more comfortable grip
- Unique rubber head rests against walls without slipping
- Ideal wherever speed, ease of use & lack of laundry facility & storage space are issues
- Easy to use
- Compatible with MicroFX Hook & Loop and Superswish Pro Mop bases
- Handle length: 1450mm (Holds up to 580ml of water)

HOW TO USE THE SPRINKLEAR MOP

- 1 Fill the water pole with cleaning solution (up to 580ml).
- 2 Press and hold the button for continuous flow or press & release for an intermittent flow.
- 3 Clean the floor, starting from the edges and move backwards in an S motion. This ensures that surface dirt is collected. Press the button for cleaning solution release to keep the flat mop damp.
- 4 Replace the mop when it is saturated with dirt or as needed.

- 100% Acrylic fibres attract lint and dust
- Easy release of dirt when washed
- High durability

DUST CONTROL MOP

600MM

CODE: SAB59029
CTN QTY: 24 MOQ: 1

APN: 9310205590291

- 360° Swivel action into tight spots
- Extra wide 600mm head for greater coverage
- Ideal for timber, vinyl or tile surfaces

BENEFITS OF ACRYLIC

SMALLER AND FINER FIBRES
(compared to modacrylic fibres)
picks up and holds more and finer particles of dust.

LONGER AND SOFTER WOOL-LIKE STRANDS
Gets into tighter places and corners.

BETTER DURABILITY AND SHAPE RETENTION
Which helps the mop dry quickly after washing.

EASY TO CLEAN
Easy release of dirt when washed.

50 Pack

BENEFITS OF MICROFIBRE

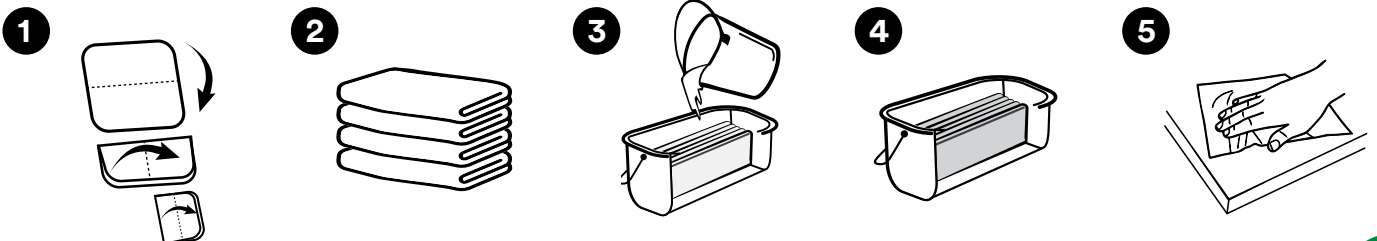

Microfibre is constructed of a blend of polyester and polyamide and is safe to use on even the most delicate surfaces. Polyester serves as the scrubbing and cleaning fibre. Polyamide performs as the holding and quick drying fibre.

Polyamide
absorbs water
10% - 30%

Polyester
absorbs grease
70% - 90%

INSTRUCTIONS FOR CLOTH PREPARATION

Cloths should be stacked in the bucket of the same colour by folding them in quarters, and stacking them horizontally in the bucket (shown in the diagrams above). Prepare the solution (50mls per cloth) in another bucket and pour over cloths in the relative bucket.

MACHINE FLOOR CLEANING PADS

SABCO COMPLETE CLEANING SOLUTIONS

Why should you use Sabco floor pads?

Manufactured to the highest quality standards, Sabco's floor pad fibres are consistent in thickness and density, making them outlast all other competitor pads. Sabco floor pads are Eco friendly with 100% of our Polyester Fibre coming from post consumer & industrial recycled waste.

Cycle of cleaning:

STRIPPING: Removing or lifting dirt & floor finish using a stripping pad, stripper solution and machine.

SCRUBBING: Use of a scrubbing pad & solution with scrubbing machine to remove soil leaving the floor finish primarily intact.

POLISHING (BUFFING): At lower speeds (from 300 to 500 rpm) using a traditional single disk machine.

BURNISHING (BUFFING): To buff a floor at very high speeds greater than 1000 rpm, to produce a high gloss and hard slip resistant finish.

STRIPPING

PAD NAMES	DESCRIPTION
BLACK:	Heavy duty wet stripping.

SPECIALITY

PAD NAMES	DESCRIPTION
MICROFIBRE:	General cleaning and burnishing. Highest hygiene standards.

BUFFING & POLISHING

PAD NAMES	DESCRIPTION
RED:	Removes light scuff marks. Smooth gloss finish. Ideal for daily use.
WHITE:	Super Polish. Extra fine pad for clean dry floors. Use dry or with a fine water mist to produce a high gloss wet look.

SCRUBBING

PAD NAMES	DESCRIPTION
GREEN:	Heavy duty wet scrubbing (or light stripping). Removes dirt/scuff marks from heavily soiled floors.
BLUE:	Wet scrubbing. Heavy duty spray cleaning. Removes heavy dirt/scuff marks.

Eco Friendly

- 38 recycled PET bottles go into 1 case of 20" floor pads (5 pads)
- 100% of the Polyester fibre comes from post consumer and industrial recycled waste
